VOL. XVIII.]

THURSDAY, JANUARY 29, 1818

[No. 5186.]

For the prevention and cure of  
**BILIOUS AND MALIGNANT FEVERS**  
is recommended  
**Hahn's ANTI-BILIOUS PILLS.**  
THIS Medicine has been attended  
with a degree of success highly grateful  
to the inventor's feelings in several parts  
of the West Indies and in the Southern  
and Middle States, &c.

The testimony of a number of persons  
can be adduced, who have reason to be-  
lieve that a timely use of this salutary re-  
medy has, under Providence, preserved  
their lives when in the most alarming cir-  
cumstances.

Facts of this conclusive nature speak  
more in favour of a medicine than col-  
umns of pompous eulogy founded on  
mere assertion.

It is not indeed presumptuously pro-  
posed as an infallible cure, but the inven-  
tor has every possible reason that can re-  
sult from extensive experience for be-  
lieving that a dose of these Pills taken  
once in every two weeks during the pre-  
valence of our bilious fevers, will prove  
an infallible preventive; and further,  
that in the earlier stages of those diseases  
their use will very generally succeed in  
restoring health, and frequently in cases  
estimated desperate and beyond the pow-  
er of common remedies.

The operation of these pills is perfectly  
mild, so as to be used with safety by per-  
sons in every situation and of every age.  
They are excellently adapted to carry  
off superfluous bile and prevent its mor-  
bid secretions—to restore and amend the  
appetite—to produce a free perspiration  
and thereby prevent colds which are of-  
ten of fatal consequences. A dose never  
fails to remove a cold if taken on its first  
appearance: they are celebrated for re-  
moving habitual costiveness—sickness at  
the stomach and severe head-ache—and  
ought to be taken by all persons on a  
change of climate.

They have been found remarkably effi-  
cacious in preventing and curing disor-  
ders attendant on long voyages, and  
should be procured and carefully preserv-  
ed for use by every seaman.

**Hamilton's Elixir.**  
A sovereign remedy for colds, obsti-  
nate coughs, asthma, sore throats, cat-  
arrhs, and approaching consumptions.—  
To persons who have children afflicted  
with the **HOOPING COUGH**, this dis-  
covery is of the first magnitude, as it af-  
fords immediate relief, checks the pro-  
gress, and in a short time entirely re-  
moves the most cruel disorders to which  
children are liable. The Elixir is per-  
fectly agreeable, and the dose so small  
that no difficulty arises in taking it.

**Hamilton's Grand Restorative.**  
Is recommended as an invaluable me-  
dicine for the speedy relief and perman-  
ent cure of  
Nervous Disorders Violent cramps in  
Consumptions the stomach and

**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at one  
application, may be used with perfect  
safety by pregnant women, or on infants  
a week old, not containing a particle of  
mercury or any dangerous ingredient  
whatever, and not accompanied with that  
tormenting smart which attends the ap-  
plication of other remedies.

**Hahn's true & genuine German Corn  
Plaster.**  
An infallible remedy for corns, speedily  
removing them root and branch, with-  
out giving any pain.

throughout Europe, is an invaluable cos-  
metic, perfectly innocent and safe, free  
from corrosive and repellent minerals,  
the basis of other lotions, and of un-  
paralleled efficacy in removing blemishes  
of the face and skin, freckles, pimples,  
inflammatory redness, scurfs, tetter, ring  
worms, sunburns, prickly heat, &c.

**AMERICAN EDITION OF  
DR. REES'S NEW CYCLOPEDIA.**  
The publishers beg leave to inform  
their subscribers, that vol. XXXVII, part  
II, (being the 74th number) is now ready  
for delivery.

When the undersigned became proprie-  
tors of this work, it appeared to be the  
general and anxious wish of the subscri-  
bers, to have it completed with all possi-  
ble expedition; and every exertion has  
been made by the publishers to meet those  
wishes. In the space of two years they  
have published twenty-five half volumes  
or Parts, seventeen of which (exclusive of  
a volume of plates) have been published  
in the course of the last year—a rapidity  
of execution which they believe has never  
been exceeded in any country. It has  
ever been the sincere desire of the pub-  
lishers to fulfil their engagements to the  
subscribers to this great work with  
punctuality; and they have reason there-  
fore to expect, on the part of the subscri-  
bers, a corresponding punctuality.

The American publishers have now  
printed this work as far as they have re-  
ceived the London copy; and as soon  
as they receive the few remaining num-  
bers, which they have reason to believe  
will not exceed four, the American edi-  
tion will be finished with all possible dis-  
patch.

This work already contains upwards  
of eight hundred Engravings; and, when  
completed, will probably (with the extra  
volumes of Plates) amount to one thou-  
sand. These plates will comprehend,  
as they believe, upwards of five thousand  
different subjects, in all the various de-  
partments of the Arts and Sciences. The  
engravings of the Portraits of distinguished  
American characters, promised to be  
given in the work, are nearly completed,  
and will be ready (with two volumes of  
extra plates) with the last number.

Those subscribers, who have not yet  
taken up their volumes, are once more  
notified, that two hundred and fifty cop-  
ies less of each of the last twenty-five  
numbers have been printed than of the  
preceding forty-nine; and, that, owing  
to this arrangement, which was rendered  
necessary by the neglect of distant sub-  
scribers to take up their books, and other  
uncontrollable circumstances, there must,  
inevitably, be upwards of two hundred  
and fifty sets left incomplete at the close  
of the publication. Those who, through  
neglect or improper delay, may hereafter  
find their application for the completion  
of their sets too late, will have no reason-  
able cause of complaint against any one  
but themselves, as all the subscribers  
were individually advised of the edition  
being reduced, more than two years ago.

# ALEXANDRIA GAZETTE AND DAILY ADVERTISER.

PUBLISHED BY  
SAMUEL SNOWDEN,  
ROYAL STREET.

Daily Gazette, 87. Country Gazette 85.

THURSDAY, JANUARY 29, 1818.

Mr. Snowden.

At this period of time, when every section of the United States seems to be feelingly alive in promoting the natural and local advantages attached to each, it may not be considered improper for the District of Columbia, and particularly the town of Alexandria, to interpose their claims for the improvement of those advantages which seem by nature and geographical situation to belong to them.

My attention has been called to this subject by observing a few days ago, in the proceedings of congress, a motion made by the hon. Mr. Strother, of Virginia, directing the committee on post offices and post roads to inquire into the expediency of establishing a post road from Middleburg in the county of Loudoun, by Rector town, Oak hill, up Manassah's road to Front Royal, and from thence to Stover's town. A more indirect route westward could not have been conceived—and it is one which cannot hereafter be improved—because, from Front Royal the road must go almost north to get round the end of Fort Mountain, and thence return southward. But this route may also materially interfere with one which is of the first importance to the town of Alexandria, as well as the community at large, if the most direct and straight road westward from the seat of government be of advantage, I mean the road long since in contemplation from the town of Alexandria, by Fauquier court house, to Thornton's Gap, and from thence to Staunton. There has lately been a survey made of the old road, as well as of the most practicable route from Alex's to Staunton, by way of Thornton's Gap, and the present road measures 166 miles and 81 poles, while the nearest practicable route is only 135 miles and 187 poles—making a difference of 30 miles and 814 poles (30 miles of which difference is between the town of Alex's and the Blue Ridge)—add to which, this road traverses one of the most fertile parts of Virginia, and if improved would bring to the District of Columbia a highly valuable trade. I cannot suppose that the honorable mover of the above resolution has any other object in view than the accommodation of the western parts of Virginia: but would it not increase that accommodation in a very great degree by making a post road in the straightest route from the seat of government to Staunton, which is the centre of Virginia—and especially when it will be nearly in a direct line from the city of Philadelphia to New-Orleans; for it will be discovered, on a reference to Lewis's map of the United States, published in 1816, and applying the scale, that a direct line from Philadelphia passes by Baltimore, diverging in an angle of a few degrees from the District of Columbia, touches Fauquier court house, Staunton, Knoxville in Tennessee, and straight to New-Orleans; and that a post road from the seat of the general government, on this route, will afford accommodation to the south of Kentucky, north of the Carolinas, and through a part of Mississippi.

While the post roads westward are undergoing alterations or improvement, is it not the interests of our citizens to urge their claim to this route? The road is already turnpiked from Alexandria to Buckland, within a few miles of Fauquier court house, and that part of the road across the mountain at Thornton's Gap, is paved. Should we not then make some small effort to improve these advantages, by petitioning congress to make this a post road—and in a few years the stage route from Tennessee, which is now by Winchester, (making almost an acute angle) will be from Staunton, by way of Thornton's Gap, to Alexandria. If you can persuade your subscribers to take this subject into consideration, you will oblige a fellow CITIZEN.

Tavern Wm.—At the breaking up of a tavern dinner party, two of the company fell down stairs—the one to the first landing place, the other to the bottom. It was observed that the first seemed dead drunk. Yes, said a wag, but he's not so far gone as the gentleman below.

# ALEXANDRIA: THURSDAY, JANUARY 29, 1818.

FROM OUR CORRESPONDENT AT WASHINGTON.

Wednesday, January 28, 1818.

Mr. Mason, of Mass. yesterday presented for the adoption of the house a resolution that the claim of that state for the expenses of its militia during the time of their service in the late war should be referred, together with the necessary documents, to a select committee, to consider them and report thereon.

Mr. Mason prefaced this resolution with some observations, in which he stated the number and dates of the several requisitions, and the compliance of the executive of Massachusetts with the requisitions, with other matters, which I heard so very imperfectly, that I cannot state them with correctness.

The resolution was adopted. And touching the same subject, Mr. Burwell offered a resolution, which was also adopted, calling on the secretary of war to lay before the house a statement of the claims of Massachusetts, and the reason why they had not been settled.

On the question that the bill for remitting the duties on stereotype Bibles and plates imported for the Bible Society should pass, an objection was raised by Mr. Strother on the score of there not being a provision in it to prevent the indulgence from being abused. The object of the bill was to forward the purposes engaged in the most laudable and useful scheme for the promotion of human happiness, and as such should have his influence; but he was averse to violating a correct principle of legislation by omitting to guard the privilege from possible abuse. Mr. Sergeant defended the bill upon the grounds of similar indulgences having frequently been granted without any provision of the kind alluded to. Mr. Ingham considered the bill as amounting to a grant of money from the public treasury for a religious establishment, which the constitution expressly prohibited congress from meddling with—and moved that the bill should be laid on the table. Mr. Sergeant replied. The question was put, and there were for laying the bill on the table 84—against it 62.

The bill respecting fugitive slaves was then taken up, but left unfinished by the committee rising before the bill was gone through.

VALLEY BANK.

The stockholders of this institution had not matured the business for which they were assembled, when our last week's paper was put to press: they again assembled on Saturday, when the code of by-laws was reported by the committee to whom that duty was assigned, and adopted by the meeting. The capitals assigned to each of the branches is \$50,000 dollars; thus leaving to the parent institution (including the \$30,000 stock created towards the fund for internal improvement) a capital of \$200,000. The salaries of the presidents of the branch banks were fixed at 500 dollars. The directors for the branch at Charlottesville were also elected—the following are the gentlemen chosen:

Thomas Griggs, jun.  
William Tate,  
John Yates,  
Smith Slaughter,  
Matthew Ransome,  
John Griggs,  
Wm. P. Graghill,  
Joseph W. Davis,  
Samuel Howell,  
John Baker,  
Thos. S. Bennett,  
Elisha Boyd,  
John R. Cooke.

We are happy to add, that the various subjects which occupied the attention of the meeting were discussed with great candor and moderation, and the utmost harmony prevailed throughout their deliberations. To the honorable gentleman who presided the thanks of the meeting are due for the patience which he exhibited during a fatiguing session of four days. For the information of distant stockholders it may not be amiss to add, that the legality of the "Shepherdstown" stock was not brought into view; whatever objections may have previously existed on that subject were generously waived, which, no doubt, conducted greatly to the harmony of the deliberations of the meeting.

We omitted at the proper time to state that capt. William Steenbergen, of Slemanah, David Humphreys, esq. of Charlottesville, and colonel Augustine C. Smith, of this place, are appointed directors on the part of the commonwealth in the Bank of the Valley. The board of directors of this institution will consist of the following gentlemen, viz:

Charles Magill,  
Edward McGuire,  
John Bell,  
Thomas Cramer,  
Obed. Waite,  
Lewis Wolfe,  
Wm. Steenbergen,  
David Humphreys,  
Aug. C. Smith.

BANK APPOINTMENTS.  
Colonel Charles Magill was, on Saturday last, elected president of the Bank of the Valley without opposition.  
Lewis Hoff, Cashier.  
George Orrick, Teller.  
John G. Mansfield, Book-keeper.  
Alexr. Holliday, Discount Clerk.  
Thomas Pack, Sumner.

The arrangements for putting the bank into operation will go on apace; but it is not expected that it will commence its operations before some time in April next.

On a return of the votes for a member of congress from the congressional district of Abbeville and Edgefield, in the room of Mr. Calhoun, the following appeared to be the result:

For Mr. Simkins, 1563  
General Butler, 1165  
Mr. Blocker, 1092

Mr. E. Simkins is consequently elected, and will probably in a few days take his seat in the representative branch of the national legislature.

Extract of a letter dated St. Thomas, December 31.

Yesterday we received an authentic information from La Guira, that the Royalists have gained a decisive battle over the Insurgents at San Fernando de Apura, which may contribute a great deal to the amelioration of our trade. Price of provisions at St. Thomas, December 23.

Superfine flour, Philadelphia and Baltimore, \$12 demanded; rice, do. 7 1/2, plenty at market; corn meal, in barrels, 7, ready sale; beef, prime, 12 1/2; do. mess, 14; pork 23; herrings 5 per bbl.; mackerel 8; salmon 16; butter 18, not in demand—large quantities of fresh butter on hands; hogs' lard 30; soap 12; candles 18 a 20, not demanded.

Exchange on London 200 per cent.—hard dollars 3 per cent. premium.

We yesterday received from our attentive correspondent a file of Nassau (N. P.) papers up to the 3d instant, inclusive.

The papers contain very little news. We extract the following from one of the 20th ultimo:

"The ship Dash, Pruden, arrived on Thursday, was brought to in the vicinity of Greenkey, on her passage from Principe to this port, by a small insurgent privateer, called the Nonpareil. Captain P. went on board the privateer, was treated with civility, and allowed to proceed. Capt. Pruden informs that a Spanish schooner, from this port for Principe, had been taken a few days before by an insurgent privateer, which put a crew of eight men in charge of the prize; that the Spaniards, who had been allowed to remain on board, watching an opportunity, rose upon the privateersmen, killed five of them and securing the others, took possession of the vessel and carried her to Principe.

"The brig Barbara, arrived this morning from Liverpool, was yesterday fired at and boarded by an insurgent privateer off Abaco, and was rather rudely treated; the privateer at one time expressing a disposition to detain her."

MASSACHUSETTS.

In the House of Representatives, January 19, Mr. Willis, of New Bedford, moved that a committee be raised to report on the expediency of fixing legal names to the days of the week, and months of the year, [as is now customary with the society of Friends].

Mr. W. briefly explained the motive which induced him to make this motion; which was, to endeavor, in this christian land, to abolish the intermixture of the names of Heathen deities in the language of the worship of the true God. The day set apart, he said, for his divine worship derives its name from the Heathenish worship of the sun on that day; and the days on which our annual fasts and thanksgivings are celebrated (Thursdays) bear the name of the Heathen god Thor. [Referred to Messrs. Willis, Channing, of B. and Hale, of Castine.]

A motion has been made, says the Boston Daily Advertiser, in the Legislature of this commonwealth, containing a proposition for establishing by law, names for the days of the week, as substitutes for the present names, which are said to be derived from certain Heathen Gods. We would suggest such an amendment for a new appellation for the official record of the proceedings of the House, the word *journal* being derived from *dis* or *Zeus*, the Greek name of the God Jupiter—for from *dis* is derived the Latin word *dis*, and *diurnus*, which in the Italian becomes *giorno*, in the French, *jour*, and in English, *journal*. This amendment perhaps ought to have the precedence, as the derivation is much more clearly traced than that of some of the names proposed to be abolished.

We may fairly expect, in the report of this committee, a rare specimen of philological learning. Yet it may be doubted whether they will show any good reason for quarrelling with our illiterate ancestors, for having named the first day of the week, and that which we devote more particularly to the service of the Creator, from the noblest object in creation, one whose presence alone distinguishes the day from night and the other days of the week from the moon, and other objects esteemed by them the most noble and dignified. It is perhaps impossible for us to determine, whether a part of these objects, when their names were appropriated to the days of the week were regarded as gods or men; and it is of little consequence to us, so long as the name cannot deceive any one into the belief, that the day is, or even was, consecrated to the service of these obscure deities.

ANOTHER CARABOO—OR JOHN BULL A GAIN QUIZ'D?

The village of Hampstead, and its neighborhood, have been thrown into a Bristol confusion, by the appearance of a mysterious female. A gentleman crossing the Heath, discovered an interesting female, about resting for the night with apparent unconcern—when questioned of name, residence, &c. she made no return but in an obscure language, and appeared as ignorant of the English as the former Miss Caraboo. She has been conveyed to the poor house, where the sages of Hampstead have since had frequent opportunities of putting numerous questions, in several different languages, but without effect. Two of the medical attendants on the poor house, interrogated her in four or five Continental languages, but she replied in the same mysterious tongue. Dr. — upon examination, could not find any organic misconstruction of the tongue: She is about the age of 19, has a lively countenance, and is a pretty girl. [Lond. pep.]

VALUE OF FLORIDA.

The following extract from a Jamaica paper is highly worthy the attention of the United States. Feathers will show how the wind blows.

To the Editor of the Jamaica Colonial Journal.

Sir—The anxious desire of the United States to obtain possession of the province of East Florida, which from being the key of the gulf of Florida, will lay the commerce of the Spanish colonies in time of war entirely at their mercy, is sufficiently well known; and our Jamaica planters and merchants ought to look to themselves, as they have certainly the most serious cause of alarm at the prospect of East Florida falling into the hands of the United States. In time of war the latter would thence have a perfect command of the Gulf of Florida.

It would be a measure of sound policy, were the Spanish Government to cede the Floridas to Great Britain; and to induce the British Government to desire the acquisition, it is proper to mention, that they would furnish it with a regular supply of naval stores, such as pitch, tar, turpentine, masts, and ship-plank, with live ash of the greatest magnitude, for ship building, with which the provinces abound. There is another circumstance which ought to have great weight. As the British would thus acquire the exclusive possession of live oak, the Americans would thereby be excluded from its use in forming a durable navy, and be obliged to use their own worthless oak, which will not last above six or seven years; at the expiration of which period, they must be at the enormous expense of renewing their whole fleet.

Live-oak is a wood of such extraordinary durability, that after the trees have been exposed to the changes and inclemency of the seasons for upwards of a century, it acquires a stony hardness, and will resist the edge of the best tempered steel. The government of the United States are acquainted with its value: their first frigates were built of this wood from trees collected in South Carolina and Georgia; they also procured frames for ten or twelve seventy fours, which were deposited in their arsenal, but were wisely destroyed by Sir Alexander Cochrane. There are now only a few scattered trees in Carolina and Georgia;—perhaps sufficient to build a frigate.

In the peninsula of East Florida there is one of the best and secure harbors in America, which will receive from fifty to one hundred sail of the line.

I am induced to hope that these observations will not escape the attention of government, and the Jamaica planters and merchants.

AN OLD OFFICER.

From the Virginia Patriot, Jan. 26.  
Perhaps it will be a gratification to many of our readers, and others in the union, to know the sentiments of Mr. Giles on the subject of Mr. Monroe's taking possession of Amelia Island. In a note, in one of the essays in the Enquirer, attributed to Mr. Giles, we believe without a dissentient, he thus exposes his spleen and his opinions: "The legitimate is redeemed." It is insinuated by some that this legitimate has found favor in the eyes of the general government. This would be wonderful, if true—but not the only wonder of the times; party spirit can work wonders as well as sectarian spirit. The executive encroachments of the last ad-

ministration prove, that the one is as little under the influence of correct principles, as the other is proven to be, by other extraordinary events. In fact they are closely allied. It must be admitted, by all partial observers, that the documents laid before congress respecting Spanish affairs are very slender materials upon which to bottom so high an act of executive prerogative as a war of aggression upon a foreign territory, to whomsoever belonging, without deigning to consult congress upon the subject; although the act must have been determined upon not many days previous to the meeting of that body; and by no means in a case of urgency. If an opinion is to be formed from this act of prerogative, and from the late abortive parade of the chief magistrate, in graciously condescending to exhibit his person to his people throughout a great portion of his dominions, an energetic democratic administration may be anticipated. The parade is called abortive, because it was at first proclaimed only as a matter of business; and great benefits were promised to the people by its abettors. The late message was, of course, looked to with anxiety for a communication of the beneficial and glorious results. It was looked to in vain; and the whole wonderful parade, after assuming its true colors, has evaporated in the gracious condescension of the exhibition of the person of the chief magistrate, for the gratification of his enamoured people, and receiving from them, in his turn, the gratification of the giddy shouts of "vive le president." But whilst that measure has passed away, the country seems to be gazing at this act of executive aggression in silent and confused amazement. A hope is indulged, however, that if the executive should have done more than its duty, CONGRESS WILL NOT FAIL TO DO THEIRS.

## To the Flour and Rice Millers

**OF THE UNITED STATES.**  
GENTLEMEN,—It appears that ma-  
ny have refused to pay for license  
to use my improvements in the art of  
manufacturing flour, and in lessening the  
labor in rice mills, waiting the decision  
of the United States' courts; while many  
others have paid freely the sums I de-  
manded for my license; there can exist  
no reason why some should pay and o-  
thers be exempt. There has already been  
a sufficient number of decisions establish-  
ing the law, that each infringer is liable  
to pay ample actual damages, which  
cannot be rated at less than the value of  
the use of my property during the in-  
fringement. I have expended the great-  
est part of a long, arduous, and indefatig-  
able life in study and exertions to invent  
and introduce into useful operation sev-  
eral important and highly useful improve-  
ments, from which great benefits are de-  
rived to the users, and I could have put  
in operation many more, equally useful,  
but was prevented by the unjustifiable  
opposition, wasting the profits of those in  
operation, which I had intended to apply  
to put others in operation which I had  
discovered; but which now lay dormant,  
to my great mortification and the public  
injury. I come into the courts claiming  
remuneration for my time and labor—the  
great expenses that I have incurred in  
advertising repeatedly over the Uni-  
ted States, and in my agents travelling  
for many years to make the utility of the  
improvements known, and to instruct  
millwrights to make, and millers to use  
them. The law contemplates that I shall  
receive ample remuneration, and by it I  
was encouraged to risk the great ex-  
penses. I have repeatedly published that  
the price of my license for the remainder  
of the term should be, the full price of  
the labor and boarding saved by the use  
of my improvements in one year only,  
with lawful interest until paid; but to  
those who infringed my rights, and re-  
fused to pay when called on, I would,  
beginning with the year ending January  
22, 1813, count the sum saved in labor  
and boarding during the last year (equal  
to the first price) as a new sum becoming  
due, and running on interest also; and  
so on, the 22d day of January in each  
and every year thereafter, a new sum  
saved in labor and boarding becomes due,  
and runs on interest until license be pur-  
chased, demanding the interest only on  
all these sums, leaving the principal in  
the hands of the users; which is the least  
I can receive of them to meet the ex-  
penses which they have compelled me to  
incur. The above are now the only  
terms on which my agents are instructed  
to grant licenses, and they are instructed  
to institute suits against all infringers  
without giving them another call.  
Those who wish to purchase licenses  
may apply to John Love, esq. Buckland,  
Prince William County, or to capt. John  
Moody, Richmond, Va.

**OLIVER EVANS.**  
NOTICE.—Persons using Mr. Evans'  
improvements, or parts of them, unpaid  
for, will be sued if they do not discharge  
the claim on application. Mr. William  
H. Alexander has, under my authority  
from Mr. Evans, been empowered to re-  
ceive payments and deliver licenses to  
use his improvements. Payments, there-  
fore, made to him, John Moody, or my-  
self, will alone be valid, and save the ex-  
pense of suit and treble damages to the  
defendants.

## CHARLES COUNTY COURT.

August Term, 1817.  
ON application to Charles County  
Court by petition in writing of  
Walter Fearson, of Charles county, for  
the benefit of the act of Assembly for the  
relief of sundry insolvent debtors, passed  
at November session, eighteen hundred  
and five, and the several supplements  
thereto, on the terms mentioned therein,  
a schedule of his property and a list of  
his creditors on oath, so far as he can  
ascertain them, being annexed to his pe-  
tition, and the Court being satisfied by  
competent testimony that the said Wal-  
ter Fearson has resided two years imme-  
diately preceding the time of his applica-  
tion in the state of Maryland, and being  
also satisfied that the said Walter Fear-  
son is in actual confinement for debt, and  
the said Walter Fearson having entered  
into bond with sufficient security for his  
personal appearance in Charles County  
Court to answer such allegations as his  
creditors may make against him: It is  
therefore ordered and adjudged that the  
said Walter Fearson be discharged from  
imprisonment, and that by causing a copy  
of this order to be inserted in some one  
of the newspapers edited in the District  
of Columbia once a week for two months  
successively before the third Monday  
of March next he give notice to his  
creditors to appear before the said court  
at Charlestown in said county, on the  
said third Monday in March next, for  
the purpose of recommending a trustee  
for their benefit, and to show cause  
why the said Walter Fearson should not  
have the benefit of the several insolvent  
laws, as prayed. Given under my hand  
this 9th day of December 1817.

**Valuable Land for Sale.**  
**THE** subscriber wishes to sell two valuable Tracts of Land—one situated in the upper part of Fairfax county, adjoining the lands of Samuel G. Griffith, and bounded north by the Potomac river, containing 700 acres, about one half in wood; of the clear land a considerable proportion is first river bottom, equal in fertility to any in Virginia; the upland is well situated for farming and of a good quality. There is also a mill seat on the Tract of considerable value. This farm is worth the attention of any person wishing to engage in the farming business, as it certainly is not exceeded by any in the county (perhaps state) as a farm of profit, and may be had on reasonable terms. Mr. John Bickler, who resides near the land, will show it, and Mr. Wm. McCarty of Loudoun county, or Mr. John W. Bronaugh of Georgetown, D. C. will make known the terms. If this Tract is not disposed of before the 2nd of MARCH, it will then be exposed to PUBLIC SALE, at Wiley's Tavern, on the road leading from Alexandria to Leesburg.  
The other Tract contains 1000 acres, and is the upper and most valuable part of the Tract I live on. It is situated ten miles below Alexandria, and bounded N. by Accotink creek. This Tract will be divided to suit purchasers, if found necessary. Persons wishing to purchase will apply to the subscriber living at Cedar Grove, who will show the land and make known the terms.

**James Kennedy & Son, BOOKSELLERS,**  
KING-STREET, ALEXANDRIA,  
**RESPECTFULLY** inform the public that they have just received from **Lee's Medicine Store,** No. 46, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:  
**Hamilton's Worm-destroying Lozenges,**  
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.  
This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mild est purgative that can be used on any occasion.  
**Description of Worms, and the symptoms by which they are known.**  
Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small maw-worm; the Cucurbitina or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.  
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and some times voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.  
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.  
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.  
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.  
**The Restorative Powder for the Teeth and Gums.**

**For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended HAHN'S ANTI-BILIOUS PILLS**  
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.  
The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.  
Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.  
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.  
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold it taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.  
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

**Hamilton's Elixir,**  
A sovereign remedy for colds, obstinate coughs, asthma, sore throats, catarrhs, and approaching consumptions. To parents who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.  
**Hamilton's Grand Restorative,**  
Is recommended as an invaluable medicine for the speedy relief and permanent cure of  
Nervous Disorders Violent cramps in the stomach and bowels  
Lowness of spirits Indigestion  
Loss of appetite Impurity of blood  
Melancholy Hysterical affection  
Gout in the stomach  
Inward weakness Pains in the limbs and debility

**Hamilton's Essence and Extract of Mustard.**  
A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout, palsy, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc.  
**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.  
**Hahn's true & genuine German Corn Plaster.**  
An infallible remedy for corns, speedily removing them root and branch, without giving any pain.  
**The Genuine Persian Lotion,**  
So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

**Hahn's genuine Eye Water.**
